

Volunteer Opportunities

We get calls and emails everyday from people who generously want to volunteer their time or services to help support HVS and the nation's homeless warriors. Below are some examples of ways people can volunteer and help spread HVS's mission.

- *A gentleman and his two friends took three days to walkover 130 miles from Miami, FL to Key West, FL, not as a fundraiser but to simply raise awareness for a cause. Decked out in printed shirts, with a flag, literature, and stickers, these men can spread the word to drivers and locals passing by. During this type of walk these men can receive checks for their cause, but more importantly are able to let more people know that there are opportunities through volunteering to help take care of these young men and women when they return from the war.*

Pass out literature

You can ask to put literature in stores, give them to organizations, clubs, or companies to help spread awareness and possibly generate sponsorships or new fundraisers from people who have not yet heard about us.

Volunteer at local Events

Many of our events use volunteers to help with set-up, registration, clean up, handing out prizes, etc. If you would like to volunteer your time at an event in your area or if there is something you would like more information about, please fill out our [volunteer form](#) and tell us which event you would like more information about. We will get back with you as soon as possible with the details or contact information of the event coordinator.
